TIGER COMPRESSOR STATION (XTO) FOR AN AIR QUALITY PERMIT, NO. 7623-M2	AQB 21-41

STIPULATION REGARDING SCHEDULE AND PROCEDURES

Crestwood New Mexico Pipeline LLC; XTO Energy, Inc.; ConocoPhillips Company; New Mexico Environment Department; and WildEarth Guardians (together, “the Parties”) have conferred and agree to the following recommended schedule and procedures regarding the hearing for the above-listed air quality permit hearings scheduled to begin on October 25, 2021:

1. **Prehearing Motions:** The Parties agree to the following schedule regarding prehearing motions:
 - a. Motions, including Motions in limine, due: October 12, 2021
 - b. Responses to motions: October 22, 2021
2. **Hearing Schedule:** To maximize efficiency, the Parties respectfully suggest that the Hearing Officer hear the applications in the following order, beginning on Monday, October 25, 2021:
 - a. XTO Energy, Inc.’s applications: AQB 21-31, AQB 21-32, AQB 21-33, AQB 21-34, AQB 21-35, AQB 21-39, AQB 21-40, AQB 21-41
 - b. Crestwood New Mexico Pipeline LLC’s application: AQB 21-38
 - c. ConocoPhillips Company’s application: AQB 21-36
3. **Hearing Length:** Based on the proposed schedule and time limits for each witness (see below), the Parties estimate the hearing for all ten applications will take between two and three days.
4. **Public Comment:** To maximize opportunities for public participation, the Parties suggest that the Hearing Officer schedule three public comment periods each day of the hearing, to accept comments on all ten applications. The Parties recommend that these

public comment periods be scheduled at 9:00 am, 1:00 pm, and 5:00 pm. This format was successfully used during the recent Ozone Rulemaking.

5. Witness Testimony:

- a. The Parties will endeavor to limit each witness's testimony to forty-five (45) minutes.
- b. Because WildEarth Guardians raised many of the same or similar issues in their comments on the applications ("similar issues"), WildEarth Guardians agrees to provide testimony and argument regarding similar issues once on the first day of the hearing (October 25, 2021) and indicate which other applications the testimony and argument applies to, instead of repeating testimony or argument for each application, as applicable.

Respectfully submitted,
